Early multi-purpose grain, silage & grazing hybrid for dependable performance

Hybrid Features:

- Exceptional uniformity with upright leaf stature. Visually attractive.
- Roundup Ready[®] Crop Safety Yield Advantage[®].
- Very strong agronomics, disease resistance, standability and very good stress tolerance.
- Early high performance multi-purpose hybrid for grain, silage and grazing.
- Superior health, drought tolerance and late season intactness.
- Excellent emergence and aggressive seedling vigour.
- Exceptional test weight with rapid drydown.
- Tall hybrid with high starch content.

Positioning/Management:

Semi-Fixed ear hybrid that should be planted at seeding rates of greater than 32,000/ac to maximize yield potential. Very good spring vigour conducive for tough cold soils. Outstanding vigour and plant health for no-till farming operations. Very suitable for early planting and cold soils. Check with PRIDE Seeds for a list of key competitors to position against.

Hybrid Management Guidelines:

Characteristics		Adaptability	
Ear Type	Semi-Fixed	Grain Excellent	
Grain Aspect	Excellent	Silage Very Good	
Kernel Rows	16	High Moisture Corn N/A	
Disease Tolerance	Excellent		
Growth		Planting	
Flowering for Maturity.	Average	Final Population (000s per acre): 32-36	
Mid Flowering	•	Suitability: Conventional, Minimum & No-Till	
Black Layer		Widely adapted to all environments & soils	
Emergence	Excellent		
Spring Vigour	Very Good		
Plant Height	Tall	Harvest	
Ear Height	Medium	Harvest Timing Flexible	
Stalk Strength	Excellent	Test Weight Excellent	
Root Strength	Excellent	Drydown Excellent	
Staygreen	Excellent		
Drought Tolerance	Verv Good
