

# A6009Bt 2800 CHU 89-92 Days

## High Yielding Leader for Maturity

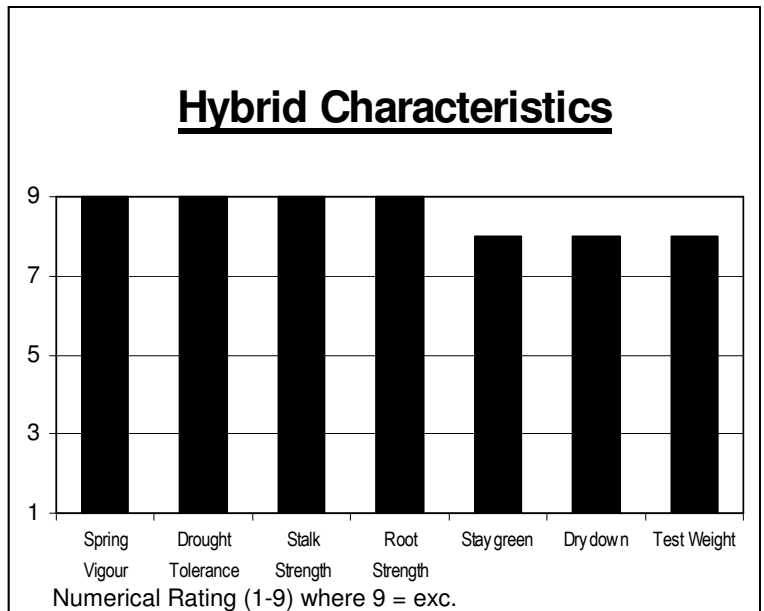

### Hybrid Features

- Hybrid with YieldGard corn borer protection and outstanding yield potential
- Superior fall plant intactness
- Consistent plant uniformity throughout the season
- Very good protein and starch content
- Excellent stalk strength through to harvest
- A must see on every farm

### Positioning/Management

Excellent early season vigor for early planting. Very good staygreen and plant health. Excellent wide window for harvest due to excellent stalk strength. Very good grain quality. YieldGard corn borer to enhance full season corn borer protection.

Check with Pride Seeds for a list of key competitors to position against.

### Detailed Hybrid Information

**Mid Flowering:** 1210 GDU    **Black Layer:** 2215 GDU  
**Plant Height:** Medium-Tall  
**Ear Angle Harvest:** Upright  
**Ear Height:** Medium                      **Ear Type:** Semi-Flex  
**Cob Colour:** Red                              **Kernel Rows:** 18  
**Disease Tolerance:** Very good plant health  
**Corn Borer Tolerance:** YieldGard resistance to European corn borer  
**Harvest Population (000s per acre):** 28-31  
**Refuge Recommendation:** K196, 4526
