

A6803

3025 CHU
97-101 Days

Conventional Hybrid for All Conditions

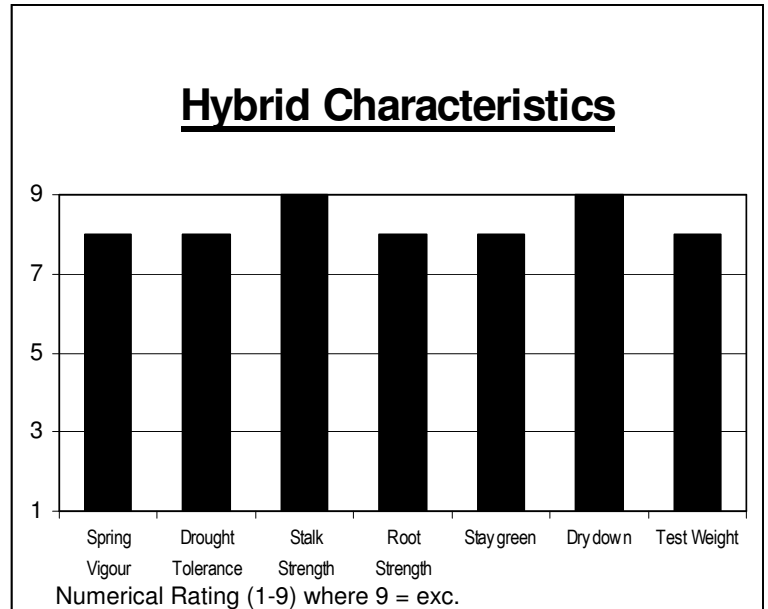

Hybrid Features

- Consistent conventional hybrid with good yield potential for maturity
- Excellent stalk and root strength through harvest
- Very good heat and drought stress tolerance
- Maturity leading conventional for stand alone or refuge situations

Positioning/Management

A6803 has consistent performance across all environments. Excellent adaptability on highly productive soils. Excellent hybrid for refuge with A7110Bt or use alone under moderate to low corn borer pressure. Pay close attention to growing conditions and crop stage with growth regulating herbicides.

Check with Pride Seeds for a list of competitors to position against.

Detailed Hybrid Information

Mid Flowering: 1250 GDU **Black Layer:** 2300 GDU
Plant Height: Medium **Ear Angle Harvest:** Down
Ear Height: Medium **Ear Type:** Semi-Flex
Cob Colour: Red **Kernel Rows:** 16-18
Disease Tolerance: Very good plant health
Corn Borer Tolerance: Very good natural tolerance to European corn borer
Harvest Population (000s per acre): 27-30
