Silage CHU)

NEW - Late Season Choice for Silage Performance

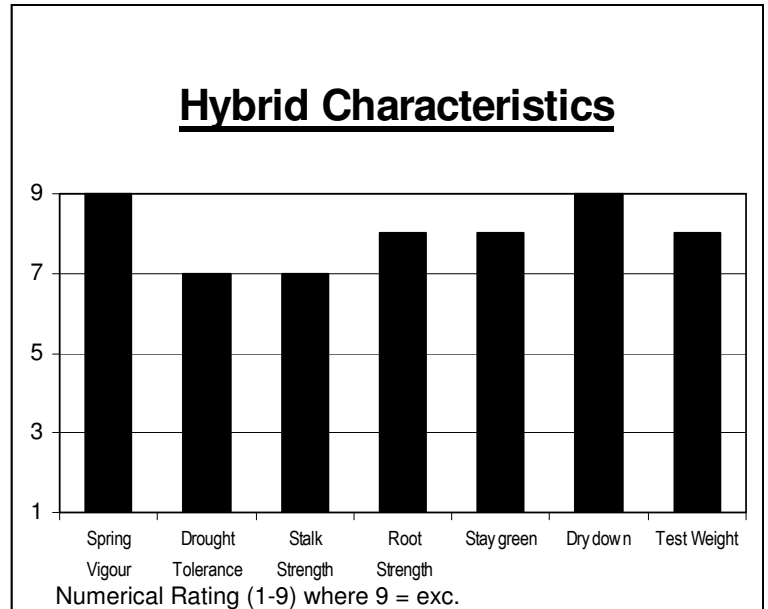

Hybrid Features

- Tall hybrid with medium-high ear placement
- First choice for silage but works well as grain hybrid
- Very good emergence and spring vigour
- Very good grain quality
- Roundup Ready *crop safety yield advantage*

Positioning/Management

Excellent performance on high yield environments with very good plant health. Excellent late season intactness to take advantage of fall drydown period. Plant early to maximize full growing season. Can be sprayed with Roundup herbicides for control of broadleaf weeds and grasses.

Check with Pride Seeds for a list of key competitors to position against.

Hybrid Management Guidelines

Mid Flowering: 1295 GDU **Black Layer:** 2490 GDU

Plant Height: Tall

Ear Angle Harvest: Semi-Erect

Ear Height: Medium-High **Ear Type:** Semi-Fixed

Cob Colour: Red **Kernel Rows:** 14-16

Disease Tolerance: Very Good

Corn Borer Tolerance: Good tolerance to European corn borer

Harvest Population (000s per acre): 28-30
