New – Premier Performer for Maturity

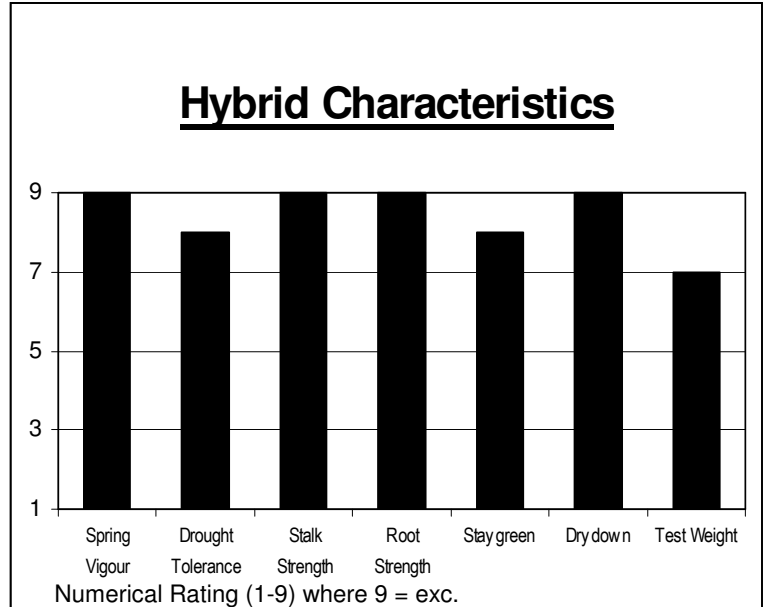

Hybrid Features

- High yield potential with outstanding grain quality
- Excellent drydown
- Clean quality grain
- Excellent stalks and roots
- Consistent blocky ear
- Outstanding late season plant intactness

Positioning/Management

Very good single trait Bt hybrid. Corn borer protection for the full season. Very good grain quality with high starch and % protein. Excellent high moisture or grain corn. Works best within its maturity range.

Check with Pride Seeds for a list of key competitors to position against.

Hybrid Management Guidelines

Mid Flowering: 1315 GDU **Black Layer:** 2540 GDU

Plant Height: Tall

Ear Angle Harvest: Upright

Ear Height: Medium

Ear Type: Semi-Flex

Cob Colour: Red

Kernel Rows: 16

Disease Tolerance: Very good plant health

Corn Borer Tolerance: YieldGard resistance to European corn borer

Harvest Population (000s per acre): 28-31

Refuge Recommendation: K542, A8006
