

A8006 **3300 CHU** 108-110 Days

Conventional Performance Leader for Maturity

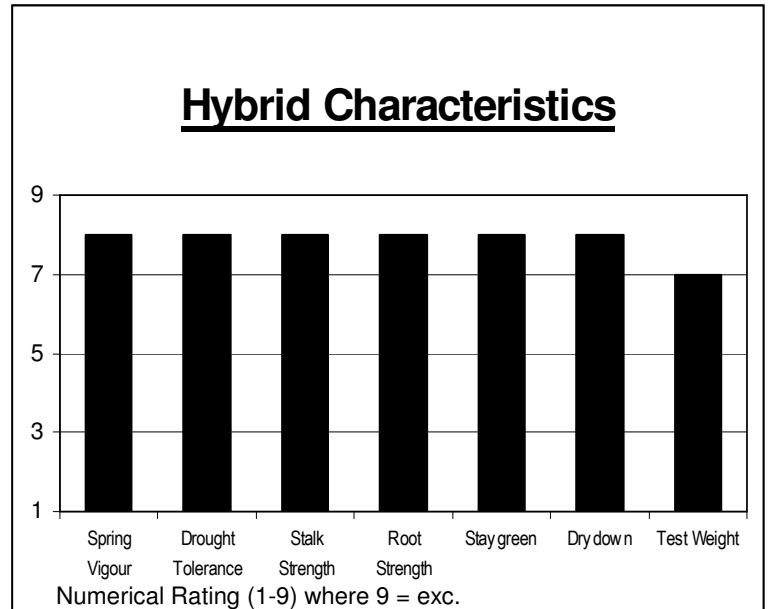

Hybrid Features

- Top end conventional yielding hybrid with very good plant health
- Adapts well to all soil types
- Very good standability
- Very good drought tolerance
- Full season maturity for Ontario
- HeroPack combination with A8107Bt

Positioning/Management

A high performing non-GMO hybrid that works well across most soil types. Designed specifically for the later maturity areas of Southwest Ontario. A8006 has very good stalks and roots to carry it through to harvest.

Check with Pride Seeds for a list of key competitors to position against.

Hybrid Management Guidelines

Mid Flowering: 1320 GDU **Black Layer:** 2570 GDU
Plant Height: Medium **Leaf Width:** Medium
Ear Height: Medium **Ear Type:** Highly Flexible
Cob Colour: Light Red **Husk Coverage:** Flares
Disease Tolerance: Very Good
Harvest Population (000s per acre): 27-31

Adaptability	Grain	Silage	HMC
