

K110

2475 CHU
76-77 Days
(2350-2500 Silage CHU)

Top Choice for Early Silage

Hybrid Features

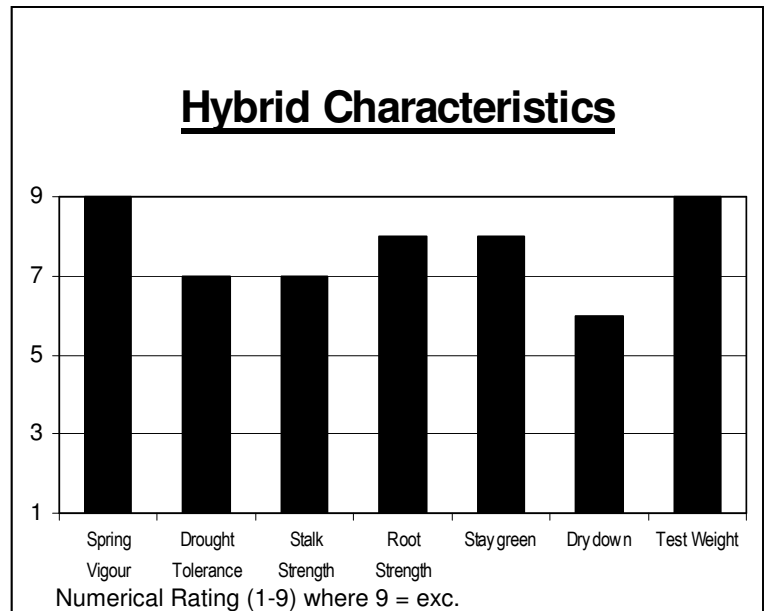

- Economical hybrid with outstanding energy yields per acre
- Excellent results for grain or silage
- Tall leafy hybrid with good plant intactness to harvest
- Excellent test weight and excellent grain quality
- Strong roots and stalks

Positioning/Management

Excellent emergence and good vigorous early development. A fixed ear type – that can be sown at higher populations and will respond to high fertility management. Excellent adaptability to all soil types. On lighter soils, keep populations to lower end of recommendation. Excellent early companion for K115 or K130Bt. Performs well in no-till or conventional tillage operations. A top choice for a grain or early silage hybrid.

Check with Pride Seeds for a list of key competitors to position against.

Detailed Hybrid Information

Mid Flowering: 1070 GDU **Black Layer:** 1930 GDU
Plant Height: Tall **Leaf:** Semi Upright
Ear Height: Medium **Ear Type:** Fixed
Cob Colour: White **Kernel Rows:** 14
Disease Tolerance: Good plant health
Corn Borer Tolerance: Good tolerance to European corn borer
Harvest Population (000s per acre): 28-31
