

PS 73

Yield, Yield, Yield!

RELATIVE MATURITY

Maturity..... 2900 CHU

KEY FEATURES

- ✓ Consistently high yielding soybean variety in Ontario Trials in the 2700-2900 CHU area (109% yield index in 2 year average and 107% in 3 year average - Table 4.2*).
- ✓ Medium/Tall, medium bushy plant.
- ✓ Excellent Phytophthora and white mould tolerance.
- ✓ Adapts to all soil types.
- ✓ Excellent choice for quick spring emergence.
- ✓ Works well in wide rows.
