EDF

Dependable Yields of Highly Digestible and Palatable Forage and Starch for Feeding Efficiency

Hybrid Features:

- Highly digestible leafy Roundup Ready® hybrid with built-in rootworm and
- corn borer protection for corn on corn rotations.
- RIB Complete® with 10% refuge in the bag for automatic refuge compliance.
- The right combination of grain, soft starch kernels and high dry matter production.
- High fibre and starch digestibility for maximum feed value.
- Dependable economic package of digestible energy per acre.

Positioning/Management:

Effective digestible fibre (EDF) hybrid that offers the advantage of high digestibility and palatability for improved feeding efficiency. Keep population at 28000pl/ac for maximum fibre digestibility and starch content. For silage use only - not to be used for grain production.

Hybrid Management Guidelines:

Characteristics

Ear Type	Semi-Flex
Grain Aspect	Soft
Kernel Rows	16
Disease Tolerance.....	Very Good
Goss's Wilt Tolerance.....	N/A
Cob Colour.....	White

Growth

Flowering for Maturity	Average-Late
Mid Flowering	1250 GDU
Black Layer	2430 GDU
Emergence	Excellent
Spring Vigour	Very Good
Plant Height	Tall
Ear Height	Medium
Stalk Strength	Excellent
Root Strength	Excellent
Staygreen	Excellent
Drought Tolerance	Very Good

Usage

Grain	Not Recommended
Silage	Excellent
High Moisture Corn ...	Good

Planting

Final Population (000s per acre): 27-29000
Suitability: Excellent choice for no-till, corn on corn with built in corn root worm protection

Harvest

Harvest Timing.....	Wide Silage Window
Dry Matter Content....	Very Good
Energy	High
Starch Content.....	Good
Digestibility.....	Excellent

Ratings and characteristics are assigned by Pride Seeds based on comparisons with other Pride Seeds products (not competitive products) through observations and in-house field testing. Individual results may vary depending on local growing, soil and weather conditions and agronomic practices.
