

FORAGE MIXTURES

EQUINOX

Product Features

- 60% GALAXY alfalfa + 40% RICHMOND timothy A mixture of less alfalfa and a higher content of timothy for increased fibre content in the ration
- Forage features high performance in palatability, dry matter yield and forage quality
- Increased fibre digestibility and energy resulting in high relative feed quality (RFQ) rating
- Accelerated swath drying rate, fast recovery and superior cold tolerance
- Richmond is an early maturing grass known for its high yield and its excellent regrowth in a multi-cut alfalfa system ensuring uniform grass content in each cut
- Great choice for haylage for maximum yield with early first cut

All orders and sales are subject to the PRIDE Seeds Terms and Conditions of Sale, which include but are not limited to the Limitation of Warranty & Remedy and Agronomic Zone and Planting Year. All Terms and Conditions of Sale are subject to change from time to time without prior notice. PRIDE® & Design, P® & Design, Advantage Acre®, and Pride Advantage Acre® & Design are registered trademarks of AgReliant Genetics Inc. Characteristics are assigned by PRIDE® based on comparisons with other PRIDE® products (not competitive products) through in-house field testing. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.
