

Highly traited variety. This bean is a good choice for early planting with excellent emergence and a strong rating for reduced tillage. Peking source SCN resistance for control of SCN races 1 and 3 and stacked phytophthora genes 1ck. Strong defensive characteristics including white mould resistance and SDS. Excellent canopy closure, even under stress. Tall-medium bushy plant, well-suited for no-till practices and adapted to all soil types. Yield is worthy of placement on your most fertile ground. Aggressive performance in tough conditions.

PRODUCT FEATURES

- High-performance Roundup Ready 2 Xtend® is ideally suited for the mid to late MG II region
- Carries Peking source of genetic resistance for multi-race SCN resistance
- Excellent opportunity to rotate to a different resistance source for an SCN resistance management strategy
- Value-added unique Rps 1ck stacked phytophthora root rot protection
- Provides tolerance to dicamba and glyphosate herbicides
- Excellent podding with lots of top clusters
- Position with confidence and push it for high-end yields

All orders and sales are subject to the PRIDE Seeds Terms and Conditions of Sale, which include but are not limited to the Limitation of Warranty & Remedy and Agronomic Zone and Planting Year. All Terms and Conditions of Sale are subject to change from time to time without prior notice. PRIDE® & Design, P® & Design, Advantage Acre®, and Pride Advantage Acre® & Design are registered trademarks of AgReliant Genetics Inc. Characteristics are assigned by PRIDE® based on comparisons with other PRIDE® products (not competitive products) through in-house field testing. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. It is a violation of federal law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with products with Roundup Ready 2 Xtend® soybeans. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED AND APPROVED FOR SUCH USES. Contact the Pest Management Regulatory Agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend® soybeans or products with XtendFlex® Technology. Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Roundup Ready 2 Xtend® soybeans contains genes that confer tolerance to glyphosate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Contact your Bayer retailer, refer to the Bayer Technology Use Guide, or call the technical support line at 1-888-283-6847 for recommended Roundup Ready® Xtend Crop System weed control programs.
